The Trust, TAC, and FCR have consented to an interim cross-trust exposure review audit, which will be conducted by the Delaware Claims Processing Facility (“DCPF”). Each month approved but unpaid claims will be randomly selected for this interim audit. The number of claims selected for the interim audit will be comparable to the prior audit. Selected claims will be put on an external audit hold. The interim audit will start in February 2025, sampling claims approved in January 2025.

The interim audit will compare the sampled claim with all other claims filed by that claimant with the following trusts: 1) The Armstrong World Industries, Inc. Asbestos Personal Injury Settlement Trust, 2) The Babcock & Wilcox Asbestos Personal Injury Trust, 3) The Celotex Asbestos PI Trust, 4) The Owens Corning/Fibreboard Asbestos Personal Injury Trust, 5) The Federal Mogul Asbestos Personal Injury Trust, 6) The USG Asbestos Personal Injury Settlement Trust, 7) The WRG Asbestos PI Trust, 8) The Pittsburgh Corning Corporation Asbestos Personal Injury Trust, 9) The Flintkote Asbestos Trust.

The audit will compare:

1. the years and/or dates of exposure,
2. the site(s) of exposure,
3. the trade(s) of the injured party,
4. the circumstances of exposure, and
5. product identification.

If there are discrepancies with the above claims information, the Trusts may request additional information. The initial audit review will be completed within 60 days of the selection.

At this time, Ankura is not drawing new samples of claims for audit. However, you may receive communications from Ankura regarding pending audits.
